I have read the above, and I am solidly in Microsoft's court. I feel the energy, enterprise, and creativity of this company have contributed to our economy and its products have set a standard for competitors to meet. We have an obligation to support our giants rather than destroy them. Weaken Microsoft and the ripple effect will be felt throughout the industry. Are they arrogant? I don't know, nor do I care! And, whose standards of arrogance are being used to judge the partners? Frankly, I think the complaint against them is arrogant.
